QUESTION 2a Sport

Your class has been discussing about the sports they play and your teacher has asked you to write an essay about a sport you would like take up.

In your essay, you should write about:

- what sport you would take up
- reasons for your choice
- where you would play this sport

Write your essay using all the notes and giving reasons for your point of view.

Answer

It is good to play a sport as it can keep one fit and healthy. I think a sport that I would like to take up is swimming.

There are many benefits to swimming. One of the benefits is that it works the whole body. Swimming can increase the heart rate without stressing the body, tones the muscles, as well as builds strength and endurance. Swimming also strengthens the heart and lungs. Another benefit of swimming is that it will help to burn calories and help me lose weight. I often have trouble sleeping at night therefore it would be good to go swimming. It is a vigorous activity that will tire me out and hopefully help me sleep better. Yet another reason to go swimming is, it will boost my mood and help me to destress.

I can go swimming at the swimming pool in the recreation centre not too far from my house. I can go there in the evenings.

QUESTION 2b Spend money

Your class is discussing you spend your money wisely and your teacher has asked you to write an essay on how you spend your money.

In your essay, you should write about:

- the things you spend your money on
- where you would buy these things
- how you save money when you shop

Write your **essay** using all the notes and giving reasons for your point of view.

Answer

My monthly expenses usually consist of books and stationeries, personal care items, snacks and entertainment.

I usually get books and stationeries through online stores because they tend to be cheaper. Furthermore, if I buy a certain amount, I will get free delivery. This is very convenient for me since I do not have to spend extra on transport.

As for personal care items and snacks, I usually buy them at a hypermarket. This is because the prices are usually cheaper and I can get all my things under one roof. This would save me time and effort to go to other places to shop. As my parents are card members of the hypermarket, I sometimes get members' discounts and free gifts.

In terms of entertainment, I am an avid movie-goer so I joined a membership programme at a cineplex. As a member, I get some privileges including students' discounts and free tickets on my birthday.

QUESTION 2c Holiday

Your class has been discussing holidays at the beach and holidays in the city. Your teacher has asked you to write an essay about the advantages of holidays at the beach and in the city.

In your essay, you should write about:

- the advantages of holidays at the beach
- the advantages of holidays in the city
- your preferred choice

Write your **essay** using all the notes and giving your point of view.

Answer

There are many places to spend the holidays. Some prefer holidaying at the beach while others believe that holidaying in the city is fun. Holidays at the beach are much more relaxing. There are many leisure activities available at the beach such as having a picnic or building sandcastles. For adventure lovers, there are many exciting water sports activities such as jet skiing, surfing, sailing and many more.

On the other hand, holidays in the city can be lots of fun too. One is able to go to interesting places of interest such as educational centres, museums, art galleries and zoos. There are more options for shopping and dining. The public transportation system is much better in the city and this makes it convenient for holiday -makers. However, holidays at the beach is my preferred choice since I can unwind and spend the days listening to the waves and walking on the sandy beach.
